

Appeal to Voters

Br. Ramesh
Joint Secretary,
Foundation for Restoration of National Values

The Foundation for Restoration of National Values (FRNV), had identified ELECTORAL REFORMS as one of four focus areas:

In the area of Electoral Reforms, recently we have initiated the following:

We had sent out a letter to General Secretaries of major political parties (from our President, Dr. E Sreedharan). We have also issued a press release, stressing on the importance of voting and also voting for the 'right leader' (and importantly not voting for candidates with criminal record). We also have an APPEAL TO VOTERS (from the President). Both these are available on the FRNV website (www.valuefoundation.in)

As an immediate next step, we propose to do the following, to send out this appeal to as many as possible:

1. We are getting this appeal translated in as many languages for circulation in all states
2. We are writing to all Friends of FRNV and urge them to take this up with their friends, family, colleagues.
3. We propose to talk to different individuals/organizations who are involved in similar initiatives (some of them have been in touch with FRNV)
4. Through the Regional Chapters of FRNV, reach out to as many in the respective regions
5. The appeal has been hosted in our website. Use this link in as many communications we can.

Public participation is very critical in this initiative. We need your help with the following:

- * Please send this appeal to all your friends, family and relatives
- * If you are part of an organization, check with the management if they would like to take part in this noble cause. If they agree, through them reach out to all in the organization and associated with it.
- * If you know of websites which would like to host this information, please urge them to participate in this noble cause.

Looking forward to your participation in BUILDING A CORRUPTION-FREE INDIA!
