Prime Minister

MESSAGE

I am happy to note that the Foundation for Peace, Harmony and Good Governance has been spreading the message of peace, health, environment, human values and good governance for the last ten years.

The issues touched upon by the Foundation, including holistic health care approaches, innovative technologies and justice delivery systems, are critical to the emergence of India as a modern, prosperous nation.

Felicitations on the completion of a decade of service. May the Foundation continue its good work in the years ahead.

(Narendra Modi)
